[FMBR Has a NEW Meeting Place & Time](#)

**ATTENTION: FMBR has changed the meeting place and time.**  
Starting in April, 2010 – FMBR is meeting at

**7:30pm** at

**Unity Community Church – the Y.E.S. Hall, 3391 Middlefield Road, Palo Alto**

### **CRACKING THE CODE” OF THE VIBRATIONAL SPECTRUM: NEW DEVELOPMENTS FROM EGYPT & EUROPE**

The field of “Vibrational Medicine” is growing rapidly, with branches going in many different directions. All of these vibrational healing approaches emerge from a new Vibrational Science, which replaces modern mechanical views of life with a new understanding of the vibrational basis of life itself.

This new Vibrational Science requires us to understand the full spectrum of vibrational energies which affect life and health. The basis for this has been created by French researchers, who developed a practical system which places vibrations from any source (color, sound, movement, angle, number etc.) into a unified spectrum of energy qualities. This allows us to identify which specific vibrational qualities are involved in any health challenge, and which vibrations will balance these problems. This work has been advanced in recent years by the Egyptian scientist Dr. Ibrahim Karim of Cairo, in his [BioGeometry](#) system.

Already entire towns in Switzerland have been cleared of electro-magnetic pollution health issues through using this new knowledge. Many successful research projects sponsored by the Egyptian government (including the Egyptian National Research Centre) have shown that these Bio-Energetic methods of analyzing and applying the Vibrational Spectrum can be highly beneficial to humans, animals, and the environment.

Details of these new Vibrational approaches, as well as training in practical applications, are just now beginning to spread in North America. Hopefully we are on our way to creating the basis for a new unified science of vibrational health.

**TIME:** Friday, **7:30 p.m.**, JUNE 18, 2010

**PLACE:** Unity Community Church – Y.E.S. Hall, 3391 Middlefield Road, Palo Alto (**new location**)

**SPEAKER: Robert J. Gilbert, Ph.D.** has over 25 years of experience in testing & balancing both conventional and subtle radiation fields. He is an authority in the Sacred Geometry knowledge and techniques of many different world traditions; the first non-Egyptian ever certified to teach both the Foundation and Advanced levels of [BioGeometry®](#); and holds a Ph.D. in International Studies. Dr. Gilbert is the Director and Senior Instructor of the Vesica Institute for Holistic Studies in Asheville N.C., with an extensive website at: [www.vesica.org/](http://www.vesica.org/).

**A \$15 donation is asked of non-members, at the door**  
**Students with ID, a \$5 donation is asked**

[DIRECTIONS to Unity Community Church, Palo Alto](#)

**From Hwy 101:**

1. Take the San Antonio Road exit into Palo Alto.
2. At the first stop light, East Charleston Rd., turn right.
3. Continue to Middlefield Road.
4. Turn right on Middlefield road, continue for 1.1 miles, crossing East Meadow Drive..
5. Turn right into either of the 2 Unity Church parking lots, church in between the lots.

**From Hwy 280**

1. Take the El Monte/Moody Road exit in Los Altos.
2. Turn on El Monte toward SF Bay, continue for 1 mile.
3. Turn left onto Foothil Expressway, continue for 0.3 miles.
4. Turn right onto San Antonio Road, countinue for 3.1 miles.
5. Turn left on Middlefield road, continue for 1.1 miles, crossing East Meadow Drive.
6. Turn right into either of the 2 Unity Church parking lots, church in between the lots.

## **EDITORIAL**

# **Foundations of a New Vibrational Science: Discovering the Full Spectrum of Vibrational Energies**

## **Robert J. Gilbert, Ph.D. ,**

**Director and Senior Instructor of the Vesica Institute**

Our world has been transformed by modern technology, which in some ways has made out lives easier, and in other ways threatens to destroy life on Earth.

These new technologies are entirely based on two fundamental discoveries:

1. The Spectrum of the Physical World, Physical Matter; this spectrum is now called "The Periodic Table of the Elements." It is the recipe book of every single physical substance which can exist in our physical world. It is the physical base of any technology.
2. The Spectrum of Electro-Magnetic Energy; this is light -- and in fact, life energy itself -- which is in a process of disintegration. Electro-Magnetic energy has fallen from the realm of pure Life and Light into the world of matter, where it can be easily contained inside of machines. All of our modern technology is based on the identification of the complete SPECTRUM of Electro-magnetic energy; every 'band' of energy has a different function, and is used by different types of devices.

However, tragically, modern materialistic science has left out a THIRD essential spectrum: that of Life Energy itself, the expression of Light as Life. This is the biological life-force which lives in human bodies, in plants, in all living beings; it is different from Electro-Magnetic energy. It is more "subtle", less dense and destructive, and thus harder to stuff into dead machines than EM energy is.

Every classical tradition on the planet has a name for this life energy: Chi, Ki, Prana, Ether. The classical healing arts such as Chinese Medicine, Indian Ayurveda, the work of Paracelsus in Europe, etc. are all based on life energy, not the physical mechanism of the human body which is the focus of Western Medicine.

Because modern technology has been based only on the identification of the Spectrums of Electro-Magnetic Energy and Physical Matter (ie, the "Periodic Table" and the "Electro-Magnetic Spectrum"), it has no sense of the vibrational effects of this technology on living beings. So we are faced today with the official denial of toxic effects on the human being from Electro-Magnetic pollution, Nuclear Radiation from power plants, detrimental radiations in our food and water, etc.

With Vibrational Radiesthesia , also known as Vibrational Dowsing, we have a practical tool to allow us to KNOW the specific vibrational quality and effects of anything in the world; whether an electro-magnetic device, a powerline, a cell tower, a human being, an animal, a plant, a Shape, a Sound, a Color -- literally anything and everything can be analyzed with simple Vibrational Radiesthesia tools.

We can also MANIFEST any of the qualities which affect life, in any combination, through specific Vibrational Radiesthesia tools. This is the opening of a new era of Vibrational Medicine, of clear understanding of the qualities needed for any living being, of specific applications to balance any problem. We can balance the energy from a person, a house, a device, a city; anything.

Not only does Vibrational Radiesthesia give us a practical way to determine and apply specific vibrational qualities, we also have another profound gift from this type of practice: it develops our OWN conscious perception of these invisible life energies which are all around us. What begins as the picking up of an invisible vibrational field through the help of the dowsing device ends up transforming us: we develop an internal 'eye' to perceive these energies, and to consciously understand them at the same time. The Vibrational Radiesthesia tool is in reality training wheels, a device to keep us in stable resonance, with the energies we are testing or applying; in time we can see and/or manifest the energies without the need of any external device. However the devices are needed, as they keep us grounded and in resonance with the reality of these energies; if we leave using these devices too soon, before our resonance with the specific vibrational quality has completely crystallized, then we quickly fall prey to illusion, mistaking our own mental or energetic projections for the actual energies around us.

Through the Initiation process of doing Vibrational Radiesthesia, we overcome our blindness to life energy of God which flows through us and all around us, and can become conscious and responsible Co-Creators; this is our spiritual destiny and the purpose of the educational process of Earthly incarnation.

In fact, the crisis we have reached today from the harmful effects of modern technology forces us to develop this third science, based on the Vibrational Spectrum, if we are to survive and correct the major problems we are faced with.

Since everything in Creation is based on Sacred Geometry, on specific Divine Patterns, so the Vibrational Spectrum has been divided into 12 different bands of energy for our use. This is because it takes a minimum of 12 divisions to allow every major aspect present in the whole to be separated out into its own band; so we have 12 Arhats around Buddha, 12 Disciples around Christ, 12 Imams of Shia Islam, 12 Tribes of Israel, etc. In physical reality, exactly 12 spheres will fit around a central sphere of equal size.

The 12 core divisions of life energy, ie the Vibrational Spectrum, can be taken further for advanced work: then each of the 12 bands is further sub-divided into 12, for a total of 144 vibrational qualities, each of which has a powerful and unique function in the world. We find references to 144 in many Sacred texts, including esoteric Christianity.

We have had Vibrational Radiesthesia tools to test the 12 different vibrational qualities since the French first developed these in the 1930's, and we use these in our work today. However we have not had a tool which can detect and manifest all 144 qualities of the full system, until last year when we succeeded in developing one. This practical tool to test and apply all 144 qualities will be introduced at my talks and courses in Toronto in May 2010, and thereafter will be available to the public.

I hope this has been a useful introduction to the meaning and significance of Vibrational Testing and Applications, and of the practical use of either 12 or 144 vibrational qualities.

## **FMBR UPCOMING EVENT**

---

### **FMBR PRESENTS**

### **Egyptian and European Vibrational Methods: How to Test and Apply Precise Vibrational Energies**

#### **A Practical Workshop with Robert J. Gilbert Ph.D.**

This workshop offers instruction in vibrational testing and energy balancing methods which are almost unknown in North America. These techniques are drawn from the French school of Scientific Radiesthesia and the Egyptian system of BioGeometry®.

We will focus on methods which can be easily learned in a one-day class, and used practically for the rest of your life. All tools and materials needed to do the practices in the course will be lent to participants. Students are however asked to bring any piece of Gold they have (a ring or piece of jewelry is fine) along for the day, which you will use to

learn a specific Egyptian vibrational resonance technique.

In addition to the specific techniques described below which you will learn in the class, Dr. Gilbert will also describe and demonstrate more advanced techniques which can test and apply any of the 144 vibrations in the universal life energy spectrum. He will also describe methods used to transform the health effects of exposure to Electro-Magnetic Fields and toxic types of Earth Energy Grids.

In this course you will learn the following techniques:

- \* The European Priests' Method to Tune into any Vibration in the Universe
- \* How to find anyone's "Personal Wavelength"
- \* How to use Anatomy Charts to vibrationally test any part of the human body or energetic field
- \* The French Medical Doctors' method of Vibrational Testing ("Medical Radiesthesia")
- \* Egyptian Method to detect and manifest the "Higher Harmonic of Gold" Vibrational Field (the Gold Radiance around the Body known to all spiritual traditions).
- \* Four Different Methods to Energy Balance Locations

Dr. Robert J. Gilbert has over 25 years of experience in testing & balancing both conventional and subtle radiation fields. He is an authority in the Sacred Geometry knowledge and techniques of many different world traditions; the first non-Egyptian ever certified to teach both the Foundation and Advanced levels of BioGeometry®; and holds a Ph.D. in International Studies. Dr. Gilbert is the Director and Senior Instructor of the Vesica Institute for Holistic Studies in Asheville N.C., with an extensive website at: [www.vesica.org/](http://www.vesica.org/)

**Saturday, June 19, 2010, 10-5**  
**Los Altos Masonic Lodge**  
**146 Main St., Los Alto, CA**  
**\$125 FMBR members, \$135 non-members**  
**Call to sign up (650)948-0419**

Sign up in advance at with a credit card at [www.fmbr.org](http://www.fmbr.org)

## INFORMATION ABOUT THE FOUNDATION FOR MIND-BEING RESEARCH

The **Foundation** was established in 1980 to assist in the evolution of consciousness studies and to help bring this new field into wider recognition as a bona fide science. The interdisciplinary nature of the field is reflected in the activities of the organization and in the breadth of interests of its members who currently represent areas of engineering, science, medicine, the humanities, and the arts.

With its major focus on facilitating the development of an integrated model of consciousness, the **Foundation** provides encouragement and resources to a rather unique group of creative researchers and scientists with the objective of betterment of the individual, the society, and the environment.

Because of the special nature of scientific inquiry in this area, the **Foundation** is interested in building its regular membership with competent individuals who:

- are open to a multidisciplinary approach to knowledge
- recognize they are an integral part of any experiment
- know and are prepared to extend their own level of consciousness

The intention is to develop high standards of credibility in all research activities and publications.

Donations made to the Foundation are tax deductible.

The Foundation is incorporated under the laws of the State of California and operates as a non-profit scientific research organization under IRS code 509 (a)2 with tax exempt status under section 501 (c)3
